

HTML CSS Assignment

- 1.Design a photo gallery using CSS Grid with responsive image columns.
2. Create a responsive Blog Website using HTML and CSS by applying Flexbox and Grid concepts, where the left side displays an image and the right side displays blog text content.
3. Build a row or column of boxes inside a flex container and control their alignment, spacing, and layout direction using Flexbox.
4. Create a web layout with a flex container that holds 3 child boxes.

ANSWER:

1, 2, 3, 4 :

HTML:

```
